Grow basket

Growing media

II. Put 1 seed into 1 growing media, repeat until all are seeded.

Note: If a particular seed does not germinate after the suggested sprout days, remove the old seed in the growing media, wash the growing media and add 1 extra seed from the seed sachet into the capsule.

4

### B. HOW TO PLANT

Please refer to the smart grower user manual for more details.

1. Add water and plant food into the tank.

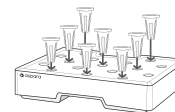

Nature

Stylist

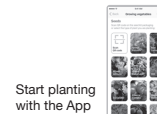

2a. Insert planting capsules into the grow tray / grow tank. Follow A. Assemble planting capsules – P.2.

2b. Put domes and covers.

3. Start planting with the App or control panel.

Start planting with the App

Great, it's all set! Your aspara® smart grower will take care of your plants from now on!

5

Be part of aspara® Club  
to enjoy member privileges

Refer to the aspara® smart grower user manual or [www.grow-green.com](http://www.grow-green.com) for assembling, setup and cleaning of your smart grower.

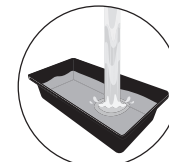

### C. SEED STARTER

Selected Seed Kits will come with a seed starter, which help save 7+ planting days!

### C1. HOW TO USE

1. Add water to ½ full of the black tray.

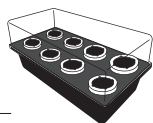

6

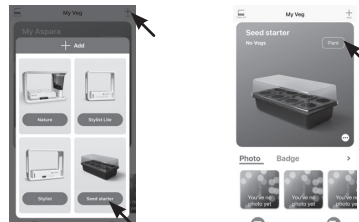

2. Place the capsule holder on the black tray, then insert capsules with seeds. Follow **A. Assemble planting capsules** – P.2.

3. Cover with the transparent cover.

4. Place the seed starter in a cool, dry place without direct sunlight and wait until seeds sprout.

#### ONLINE MODE

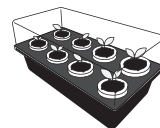

5. In the app, click 'Add' and select 'Seed starter'. 6. Start planting in a Seed starter.

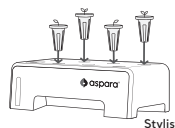

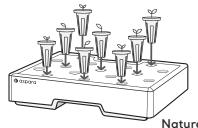

7

#### C2. HOW TO TRANSFER SEEDLINGS

1. Take capsules with seedlings reaching about 0.5cm (0.2 inch) tall.

2. Insert planting capsules into a grow tray/grow tank. Follow **B. How to plant** – P.5.

#### ONLINE MODE

In the app, select 'Transfer' in the seed starter. Choose the grower with seedling transferred.

8

The aspara planting program will auto align with your plant growth stage.

#### OFFLINE MODE

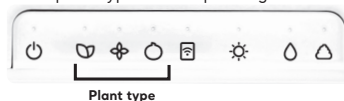

Nature

3b1. Start planting and set planting stage to 'Growth'.

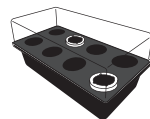

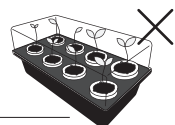

Stylist

3b2. Select a plant type to start planting.

Notes:

DO NOT let any sprouts grow taller than 1cm in the seed starter.

Only transfer the germinated planting capsules, non-germinated seeds can be left in the seed starter until they germinate.

If seeds do not germinate after the suggested sprout day, check **F. PRODUCT WARRANTY** – P.10 for the next step or contact [info@grow-green.com](mailto:info@grow-green.com)

9

#### D. PLANTING TIPS

Add a little bit of water to each planting capsule at the beginning of planting (to wet the growing media from the top) can help germination.

Refer to aspara® app in-app tips or visit [www.grow-green.com](http://www.grow-green.com) for more tips.

#### E. IMPORTANT SAFEGUARDS

- DO NOT CONSUME the plant food.
- DO NOT place the Seed Kit, especially the seed sachet and the plant food in a location where it may be played with or misused, such as near unsupervised young children or people with reduced physical, sensory or mental capabilities.
- All seeds (including pre-seeded capsules, seed sachets) and growing media (including capsules with growing media) must be stored in a cool, dry place without direct exposure to light.

#### F. PRODUCT WARRANTY

This limited warranty is available to consumers who purchased an aspara® Seed Kit (from now on called 'seed kit') at retail for personal, family or household use only.

We warrant that your seed kit will be free of defects in materials and workmanship under normal home use for one year from the date of your purchase. Please keep the proof of defects (e.g. photo), the original proof of purchase together with the original seed kit box label in order to obtain the warranty benefits. For business purchases, please contact our selected distributors for warranty details.

For Seed Kit Original with Seed Sachet (C4P/C6P/C8P Series), if a planting capsule does not germinate after the suggested sprout days, remove the old seed from the growing media, wash the growing media and add one extra seed into the planting capsule. Due to the specialty of the seed type, we have provided an extra amount of seeds, i.e. with the number of seeds more than the capsule count, consumers will NOT be able

10

to get extra seeds if any seeds do not germinate.

For all experimental kits (C8-KEX0001/CF-KEX0001), the warranty will terminate after any seed is added.

For Seed Kit DIY with Seed Sachets (CFP Series), if a planting capsule does not germinate after the suggested sprout days, remove the old seed from the growing media, wash the growing media and add one extra seed into the planting capsule. As we have provided an extra amount of seeds, i.e. with the number of seeds more than the capsule count, consumers will NOT be able to get extra seeds if any seeds do not germinate.

For Seed Kit Original with Pre-seeded Capsules (C4/C8 Series), if the planting capsule does not germinate after the suggested sprout days, seek customer support by email or direct call to your local authorized aspara® service center. Please refer to [www.grow-green.com](http://www.grow-green.com) for the updated contact of your local authorized aspara® service center. You can also email us at [info@grow-green.com](mailto:info@grow-green.com). If our customer service suggests that your planting capsule may be defective, the seeds do not germinate within 3 weeks of planting, are within a year from your purchase date and the seed kit is still within the sell by date printed on the label during your time of purchase, please keep the ungerminated planting capsules, and provide proof of planting, together with your proof of purchase and seed kit box label, to our customer service.

This warranty only covers seed kits whose all parts of the planting capsules (including seeds, growing media, grow baskets and plant food) have been used in a growing device that is produced by Growgreen Ltd and is designed to use them in aspara smart growers (e.g. aspara® Nature). It does not cover seed kits or seeds that have been improperly used or stored. All parts of the planting capsule should be from the same kit for the warranty to cover. This warranty does not cover any damage caused by accident, misuse, shipment or uses not adhering to instructions provided by Growgreen Ltd. This warranty excludes all incidental or consequential damages.

We pledge to replace any defective planting capsule parts if it is faulty. We will replace it with the same part if possible; if not, we will replace it with an item of similar value, including but not limit to different types of seeds capsules, seeds or coupons.

11
